FEATURES

ALL ELECTRIC MODELS
120 and 130

A new standard of realism.

Selective to a degree. Local and Interstate Stations can be tuned in simply, quickly and with no interference.

Extreme sensitivity, giving excellent Interstate reception.

Simplified, instantaneous tuning.

Quieter operation and improved volume control.

Scientifically designed to give the greatest power and truest tone by co-ordination of valves, speaker and A.W.A. Tonal System.

For the first time perfect control of both high and low notes is provided by the new A.W.A. Tone Adjuster.

Silent tuning between stations.

Safe and shockproof under all conditions.

Cabinet of exclusive design built to withstand extremes in climate.

Exclusive to the Radiola Model 130 is the Noise-Free Receptor. This new A.W.A. device permits excellent reception in localities where electrical noises from motors, etc., are troublesome.

VALVE EQUIPMENT

Radiolette ..... Radiotrons 57 (2), 58, 59, 80
Radiola 120 ..... Radiotrons 57 (2), 58, 59, 80
Radiola 130 ..... Radiotrons 55, 56, 58 (3), 59, 80

BATTERY OPERATED MODELS
120B and 130B

Circuit.—A.W.A. circuit, employing latest valves.

Chassis.—Pressed from special grade, bright finished steel, and heavily electroplated in Cadmium to prevent rusting.

Dynamic Speaker.—Built-in, permanent Magnet Dynamic Speaker combined with new A.W.A. Tonal Chamber.

Tuning Control.—Quick-sight illuminated tuning dial, calibrated in metres and kilocycles, and marked with "A" Class Stations for ease in tuning.

Volume Control.—New and finely graded A.W.A. Volume Control, giving smooth variations without distortion.

Power Amplifier.—Class "B" Battery-operated Power Amplifier, giving one watt output with an exceptionally low "B" battery consumption.

Batteries.—Four 45-volt dry batteries and one 2-volt accumulator.

Special Fittings.—Provided with phono pick-up jacks and a radio-phonograph change-over switch.

VALVE EQUIPMENT

Radiola 120B ..... Radiotrons 34, 32 (2), 30 (3).
Radiola 130B ..... Radiotrons 34 (2), 32 (2), 30 (4).

The 'FISK' RADIOLETTE

This small and compact but powerful radio set gives exceptional performance, and is efficient in the reception of Interstate stations.

The Radiolette is attractive in design and colour. It takes no more space on a mantelpiece than an 8-day clock, and is just the thing for the den, the verandah, the week-end retreat—for that second set you have always wanted, it is ideal.

The Radiolette is portable—it can be removed from room to room without any difficulty, giving you a radio set in every room at the price of one.

Size 16in. high, 12½in. wide, 7in. deep.
