

"Caesar's Ghost," a Midget Superhet.

TYPE 12-43

RADIOKES SPECIAL COIL KIT, WITH SHIELDS.

RADIOKES KIT-SET TYPE 12-43 COMPRISES:—

- 1 Chassis with Sockets and Terminal Strip.
- 1 Radiokes 20 ohm. W.W. Resistor.
- 1 Radiokes Midget Power Transformer, 1-45.
- 1 Stromberg-Carlson Midget 2-gang Condenser.
- 1 Radiokes Special Coil Kit with Shields.
- 2 8 mfd. Electrolytic Condensers, 550 P.V.
- 1 Radiokes 350 ohm. W.W. Resistance, 75 m/a.
- 1 Radiokes 400 ohm W.W. Resistance.
- 1 Radiokes 300 ohm. W.W. Resistance.
- 1 Radiokes 100,000 ohm. W.W. Resistance.
- 1 Radiokes 15,000 ohm. W.W. Voltage Divider, 4-24.
- 1 Radiokes 5,000 ohm. Potentiometer.
- 1 Radiokes Dial, Roman
- 2 Radiokes 460 k.c. Midget I.F. Transformers, with Cans.
- 3 Valve Cans.
- 1 I.R.C. or Ohiohm 1 meg. Grid Leak.
- 1 I.R.C. or Ohiohm .5 meg. Grid Leak.
- 1 I.R.C. or Ohiohm .05 meg. Grid Leak.
- 1 .01 mfd. Chanex.
- 1 Chanex .0001 mfd.
- 1 Chanex .0005 mfd.
- 1 Chanex .001 mfd.
- 1 Tasma Two-Contact Single-Pole Switch.
- 2 N.P. Terminals.
- 3 Chanex .1 mfd. Condensers.
- 3 Knobs.
- 1 Radiokes Padder Condenser, 460 k.c.

Sundries:

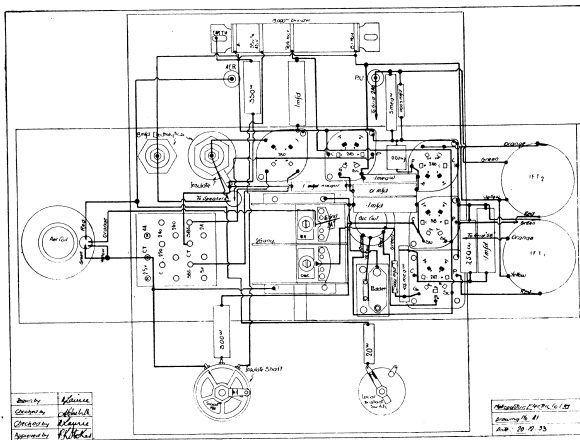

Wire, Screws, Flex, Grummetts.

Valves:

1—2A7, 1—58, —2A6, 1—2A5, 1—80.

Speaker:

Midget type M125, 2,500 ohm. field, Amplion.

Features of the "Caesar's Ghost" Midget Superheterodyne Kit Set £6/19/6

- 2A7 Pentagrid Converter.
- 2A6 Dui-diode High Mu Triode.
- 2A5 Power Output.
- Special high efficiency Isolantite Insulated Midget I.F. Transformers.
- Isolantite Insulated Stromberg-Carlson Midget Condenser Gang.
- Real Vernier Full Vision Midget Dial.
- A highly efficient Superheterodyne Receiver, built into as small a space as practicable.
- Diode detection coupled with a 2A5 power pentode and dynamic speaker ensures fidelity of reproduction at either high or low volume levels.
- 2A7 Pentagrid converter and 58 single intermediate amplifier are used to provide ample sensitivity for good interstate reception without having to use large aerials.
