

## SERVICE DATA

## MODIFICATION SHEET

## PHILIPS RADIOPLAYER

## MODELS 122-A-B-C-D

NOTE: For information other than that given on this sheet, refer to the data sheet for Models 122-A.

## MODELS 122-A

The original data sheet covers these versions. Model 122 was not manufactured.

## MODEL 122B

The "B" version used Philips type A 2 gang tuning capacitor. Code numbers of the new items are:

Tuning capacitor, (C4,5)	CZ.107.746
Dial scale	CS.412.314
Aerial coil, (L1,2), (2 blue spots)	CZ.323.007
Dial drum	CS.360.005
Tuning spindle assembly	CR.371.213
The oscillator padder capacitor C8 changes to 475pF mica.	

## MODEL 122C

This version was not manufactured.

## MODEL 122D

The "D" version is the same as the "B" version except for a change of rectifier valve. Type EZ82 is used in position V4.
