11 - 21, STURT STREET, SOUTH MELBOURNE.

AUTO RADIC SERVICE BULLETIN.

SUBJECT - 1938 ASTOR TOP ANTENNA INSTALLATION
INSTRUCTIONS.

On a test car fitted with Top Antenna Part No. 3866,
it was found that the Antenna tube worked its way
forward out of the rear antenna support Part No. 3876.

To overcome this trouble it will be necessary to
apply cement to the end of the tube before inserting
into the rear antenna support, afterwards making sure
that tube does not work forward in support whilst
fitting aerial to top of car.
