

# Radiola Electric Seven

*(Floor Model)*

*(Cat. No. R.R. 91).*

A seven-valve All-Electric Receiver, operated direct from the power point. No batteries required, gives local and inter-State reception with extreme selectivity, ample volume and wonderful tone quality.

Features simplicity of operation (single dial control), built-in cone Loudspeaker and handsome laminated maple cabinet with two-tone duco finish.

# Radiola Electric Seven

*(Table Model).*

*(Cat. No. R.R. 89)*

Beauty of design, coupled with distinctive finish mark this new 7-valve "RADIOLA." Operation is all-electric—no batteries required. Illuminated dial. One tuning control. Cabinet of laminated maple with two tone finish.

# Radiola Electric Seven.

(Table Model Type.)

---

Beauty of design, coupled with distinctive finish, marks this new seven valve Radiola. Operation is all-electric—no batteries are required.

There is one tuning control. The design of the cabinet is extremely pleasing, while the control panel is artistically finished with escutcheon plates in antique brass.

The use of a super-power valve in the last stage, and A.W.A. distortionless transformers ensure perfect reproduction and ample volume.
