

THE FISK  
**RADIOLA**

*Model 148*

A.C. - D.C. OPERATION

### RADIOLA 148

The beautiful cabinet is of Queensland walnut veneers, with high gloss lustrous finish.

# THE FISK **RADIOLA**

MODEL **148**  
(AC—DC Operation)

The Radiola 148 operates from either alternating or direct current at any frequency and is particularly suitable for use in direct current areas which are likely to be changed to alternating current supply.

Utilising recently developed circuits, multi-purpose valves, and a high fidelity loudspeaker, the Radiola 148 has exceptional range and particularly pleasing tone quality.

A fully inclined instrument panel and open faced Rotovisor dial calibrated in metres and kilocycles and marked with call letters of "A" and "B" class stations, makes tuning extremely simple and practically effortless.

**NEW WAVELENGTHS:**—This Radiola operates with maximum efficiency on present and proposed new wavelengths. Provision is made for simple change over.

*Price* **28** GUINEAS

Manufactured and Guaranteed by
