MODEL 28

THE FISK

RADIOLETTE

TABLE MODEL 28

A five valve all-electric reflex superheterodyne, giving highly efficient performance and exceptionally pleasing tone. Excellent Interstate reception is a feature.

A new A.W.A. Rotovisor dial calibrated in metres and marked with "A" and "B" class station call signs introduces a new degree of comfort and efficiency in tuning.

Price £16/17/6

Features

- Rotovision tuning, utilising a new square Rotovisor dial calibrated in metres and marked with call letters of "A" and "B" class stations.
- A distinctly modern and beautiful cabinet in full polished "Radelec." The metal escutcheon and golden silk fret make a delightful contrast to the lustrous black surface.
- Cadmium plated chassis finished in two-tone iridescent lacquer. Reliable and robust components.
- Finely graded volume control.

- Automatic volume control.
- Circuit details: Improved reflex superheterodyne utilising micro-sensitive Radiotrons 6D6 (R.F. Amplifier), 6A7 (Detector-Oscillator), 6B7 (I.F. Amplifier, Detector, A.V.C. and A.F. Amplifier), 42 (Power Output Pentode), 80 (Rectifier). Three tunable stages are used with R.F. stage ahead of first detector, resulting in improved performance at lower noise to signal ratio.
- Local-distance switch.
- Condensers floated in rubber mounting to prevent microphonic noises.
- Components specially impregnated to resist humidity.

Manufactured and guaranteed by
