# RADIOLETTE

CONSOLE MODEL 68

A five valve reflex superheterodyne all-electric receiver, beautiful in tone and appearance, and which provides excellent Interstate reception.

A new A.W.A. Rotovisor dial calibrated in metres and marked with "A" and "B" class station call-signs introduces a new degree of comfort and efficiency in tuning.

*Price* £ 21/18/6

## *Features*

- Rotovision tuning, utilising a new square Rotovisor dial calibrated in metres and marked with call letters of "A" and "B" class stations.
- A beautiful modern cabinet of decorative and artistically matched veneers. The instrument panel is sloping and brings the Rotovisor square with the eyes. Tuning is accomplished without bending or stooping.
- Cadmium plated chassis finished in two-tone iridescent lacquer. Reliable and robust components.
- Finely graded volume control.

- Automatic volume control.
- Circuit details: Improved reflex superheterodyne utilising micro-sensitive Radiotrons 6D6 (R.F. Amplifier), 6A7 (Detector-Oscillator), 6B7 (I.F. Amplifier, Detector, A.V.C. and A.F. Amplifier), 42 (Power Output Pentode), 80 (Rectifier). Three tunable stages are used with R.F. stage ahead of first detector, resulting in improved performance at lower noise to signal ratio.
- Local-distance switch.
- Condensers floated in rubber mounting to prevent microphonic noises.
- Components specially impregnated to resist humidity.

Manufactured and guaranteed by  
AMALGAMATED WIRELESS (AUSTRALASIA) LIMITED.
