THE FISK

# RADIOLETTE

MODEL 70 (BATTERY OPERATION)

A battery operated reflex superheterodyne receiver of advanced design and giving excellent interstate reception and particularly pleasing tone with most economical battery consumption.

The inclined instrument panel and square Rotor dial, calibrated in Metres and marked with "A" and "B" class station call signs makes tuning simple and effortless.

*Price* **26** GUINEAS

## **OUTSTANDING** *Features...*

- A beautiful modern cabinet of distinctive and original design with inclined instrument panel and new open fret with moulded bars.
- Improved circuits using recently developed multi-purpose valves resulting in unexcelled efficiency.
- 4 Valves. Radiotron types 34, 1A6, 6B7, 38.
- The combination of 6 volt and 2 volt valves allows advantage to be taken of low noise level, tone and A.V.C. features of the 6 volt valves, with economy in "A" battery consumption.
- Finely graded volume control.
- Automatic volume control.
- Cadmium plated chassis finished in two-tone iridescent lacquer.
- Robust and reliable components specially impregnated to resist humidity, ensuring highly efficient performance in all climates.
- Condensers floated in rubber mounting to prevent microphonic noises.
- Low battery consumption.
- New combined battery and dial lamp control for further economical battery consumption.
